By way of explanation, our assembly takes a self-inventory every two years. This biennial inventory is used to both confirm that the assembly is serving the Fellowship to your satisfaction, and just as importantly, to review the area's practices, which the assembly might consider changing or modifying. Any member is at liberty to complete an inventory questionnaire; however, the questionnaire is specifically directed to individual General Service Representatives, (GSRs), District Committee Members, (DCM's), and meeting groups in the Central Michigan Service Area.

The CMIA Alternate Delegate distributes the inventory and collects and collates the inventory for a report to the assembly on the results.

Please make copies for the groups in your service area, so their voices may be heard. Hence, it may be determined when inventory results are collected and tallied, if an Ad-Hoc Committee need

be formed, or simply a motion made, and approved, by the body, followed by discussion and then a vote.

We are striving to have CMIA 32 provide the best service to the fellowship as a result of this inventory. It is important that the responses be legibly printed for easy reading.

Considering the pandemic, and the fact we are meeting virtually until the June assembly, and possibly then and beyond, garnering responses will be subject to an expanded deadline. The return date of October 10, 2021 is the deadline to collect inventory results. Afterward, results be collated and then reported to the body, at the February 2022 assembly, by the Alternate Delegate.. Any changes that may be considered is where the Body of the Assembly and Area Chair may best serve the Fellowship as a result of this inventory, in determining what course of action is to follow, (first form an for further investigation Ad-Hoc Committee, or simply bring a motion, discussion, and then vote, to the Body).
